Overview

A Future You Can Count On!

Confederation College's Business Administration – Accounting three-year diploma program takes it a step further from the two-year Business Accounting diploma. As with the two-year program, you'll learn the basics of accounting principles and finance along with advanced courses including auditing, not for profit and public sector accounting, and project management. Learner Testimonial

Without the excellent support and encouragement from the faculty of the Business Administration - Accounting program I would never have had the opportunities that have been made available to myself. The program is rewarding for employment purposes (majority of classmates are also employed), or as a stepping stone to further education (some have also gone on to University/CPA).
