Layoffs

It's that time of year again when temporary layoffs become a reality for many people. <u>Ontario.ca</u> defines a temporary layoff as, "when an employer cuts back or stops the employee's work without ending their employment (for example, laying someone off at times when there is not enough work to do). Layoffs can be stressful and sometimes difficult to navigate. Our highly qualified team of Employment Advisors have valuable insight into the current employment landscape, and can confidently help qualified job seekers access appropriate resources such as Better Jobs Ontario.
