This unique program is developed for international students with an engineering degree. It will enhance their knowledge and skills in the specialized area of engineering business and safety management.

The program is designed to enable students to meet the demand in the engineering, industrial and construction sectors for staff with expertise in the areas of project management, occupational health and safety management, human resources, and contract and cost management. In the fourth semester, the 15-week work-integrated learning component provides a hands-on experience that will strengthen the students' engineering management skills and increase their employability.

Upon graduation, job vacancies are available in the Thunder Bay area and across Canada. Graduates can find employment in a range of positions that include Intermediate Buyer, Engineering Tech, Junior Land Surveyor, Construction Manager, Health/Safety Officers and Department Managers.

Credential Upon Completion	Graduate Certificate
Annual Fees (CAD)	\$18,197 + \$1,725 program costs (2024-25)
English Proficiency	IELTS 6.5, no band lower than 6.0
Eligible Applicants	Graduates of a four-year engineering degree program from an accredited university or college
