

Health Administration and Leadership

This one-year, graduate certificate program focuses on real-world contemporary issues and provides students with the opportunity to acquire the practical skills they need to be successful as a leader in a healthcare organization.

Learn from high-quality educators and practicing leaders in a personalized learning environment. Students will develop health administration and leadership skills in ethics, policy and law, research, operations, cultural safety, human resources, and finance. This graduate certificate programs helps students to gain practical experience while working with industry leaders on broad range of issues faced by health organizations.

Upon graduation, job vacancies are available in the Thunder Bay area and across Canada. Graduates can find administration positions in clinics, hospitals, long-term care homes, non-profit organizations, and private facilities.
