Overview

Your Career Starts Here

You know that a college education will help you reach your career goals. But what you're not quite sure of yet is what that career might be...

Confederation College's General Arts and Science two-year diploma program provides you with a good understanding of a variety of disciplines. Similar to the one-year General Arts and Science certificate program, this program is a great way to earn credits and decide on a career path later. Learn the foundations in humanities, social sciences, civics, and technology and business. You'll gain skills – and credits – that are transferable within the college and university systems.

This program is different from the one-year program because it gives greater flexibility to specialize in a variety of areas right from the first semester. You'll also take more advanced courses and be more prepared for the workplace and/or future college and university programs. Thinking about pursuing a degree – then this is the right program for you!

Top Highlights

- Get a taste of many different subjects to help decide what interests you most
- Earn a credential for entry level employment in a variety of areas
- Earn credits and transfer opportunities for future programs
- Upgrade skills to thrive in a postsecondary environment

Employment Opportunities

Upon successful completion of this program you will be eligible to pursue direct employment, postsecondary education or apprenticeship training.

General Arts and Science Diploma

Admission Requirements

- 19 years of age or older
- or Ontario Secondary School Diploma (or equivalent) with courses from the College (C), University (U), University/College (U/C), or Open (O) preparation levels with Grade 12 English (E/C/U) Level.
- or successful completion of the Mature Student Assessment.
- or successful completion of the General Education Development Test (GED).
- or appropriate credits from the Academic and Career Entrance (ACE) program - LBS level 5 Communications and LBS level 4 Mathematics.

Transfer Credits

If you already have postsecondary-level courses from a recognized college or university, you may already have a substantial amount of credit toward a General Arts and Science Certificate. You may only need to complete the required courses to qualify (refer to the policy on Transfer Credits and obtaining a second certificate).

Articulation Agreements

Confederation College has agreements in place that permit credits earned throughout this program to be transferred to programs at other colleges and universities.
