

CREDENTIAL
Ontario College Diploma

PROGRAM CODE
Fall, Winter, Spring:
0235

AREA OF INTEREST
Business

LOCATION
Distance Education

DURATION
Up to 5 years

Overview

The Library and Information Technician program provides students with the knowledge and practical skills needed to perform in various library environments.

Through a combination of theory and hands-on practice, students will learn to acquire, organize, produce, retrieve and disseminate information in all formats. The program will help prepare students for employment in academic, public, school and special libraries and other information service settings.

Top Highlights

- Two field placement courses, completed near the end of the program, enhance in-class learning by providing hands-on experience
- Gives you well-rounded knowledge to prepare you for potential employment in a wide variety of libraries, archival, records management or information management settings

Employment Opportunities

After completion of the Library and Information Technician Program graduates may find employment in any type of library (i.e. public, college, university, school or special libraries) or in an information service; such as archives, museums or records management departments.
