

Retiree Benefits Program

Retiring soon?

Have you considered what benefit coverage you will need to protect yourself and your family in retirement? Get the facts inside.

**Just 31 days
to apply**

Your one-time
opportunity
– **act now**

COMMON MYTHS

ABOUT HEALTH CARE COSTS IN RETIREMENT

MYTH: In Canada, our health care costs are covered

The facts: The government only covers a limited number of health care expenses.

Here are just a few examples of costs you might have to pay, which can add up to thousands of dollars:

- Certain cancer treatments outside of hospital
- Some arthritis and cancer medications
- Massage therapists, audiologists, osteopaths, physiotherapists and other paramedicals
- Medical equipment
- Dental services

MYTH: As a senior, I won't have to pay for prescription drugs

The facts: Provincial plans only cover a limited number of drugs – and only once you've turned 65.

What's the difference?
The Ontario Provincial Plan covers approximately 4,400 drugs. The CAAT plan covers over 14,000.

MYTH: I'm healthy and don't need coverage

The facts: We are living longer. While that's great news, as we age, our health risks increase, even if we have a history of good health.

According to Sun Life's 2016 Canadian Health Index:

- 50% of Canadians report one or more serious health issues
- 42% of this group says it caused them some financial hardship

MYTH: I have savings I can use if I have a health problem

The facts: A catastrophic illness can cost thousands of dollars. It could rapidly eat into or even use up your savings.

Even the costs of regular visits to dentists and paramedicals can add up. Especially when you consider that health care costs increase much faster than the cost of other consumer items (i.e. the Consumer Price Index).

WHY WORRY ABOUT THIS NOW?

You only have **ONE OPPORTUNITY** to join the CAAT Retiree Benefit Program.

Your College Benefits Administrator must receive your application within 31 days of your retirement date.

Note: You are only eligible if you have elected a CAAT lifetime monthly pension that starts immediately upon your retirement.

5 REASONS

TO CHOOSE CAAT FOR YOUR RETIREMENT INSURANCE

We want you to choose carefully. In fact, we have even given you a comparison sheet on the next two pages. But here are a number of things that make the CAAT Retiree Benefit Program a great value.

- 1** No health statement or medical exam at enrolment.
- 2** You're covered no matter how long you live, as long as you continue to pay your premiums.
- 3** There's up to \$100,000 of drug coverage each year.
- 4** Your premiums won't go up with age, although they could go up based on factors like plan experience (plan use) and legislation.
- 5** You get Best Doctors®: It's a second opinion from a team of international medical specialists, *anytime you want it, even without a referral.*

YOU CAN ONLY APPLY NOW

This coverage is only available within 31 days of your retirement date and if your CAAT pension starts immediately upon your retirement.

You cannot apply later. You must apply at retirement but you can discuss with your college Benefits Administrator what having coverage through your spouse means to your CAAT benefits.

HEALTH INSURANCE

COMPARISON CHART

This form can make it easier to see how the CAAT Retiree Benefits Program measures up to others.

	CAAT	Other Plan	Other Plan
<p>Will my benefits expire when I reach a certain age? Some plans won't cover drugs after a certain age</p>	No, although there may be changes under Life Insurance (see page 5)		
<p>Do I have to do a medical exam or answer health questions?</p>	No		
<p>Is there an annual maximum for drugs? There is significant drug coverage available</p>	Yes, \$100,000		
<p>Is there a lifetime maximum for drugs? If you've recovered from a serious illness, you won't have to worry that you've used up your drug coverage</p>	No		
<p>Is there a lifetime maximum for other expenses? No need to make hard decisions, "in case you need the coverage later"</p>	No		
<p>Is there an annual maximum for other expenses?</p>	Yes		
<p>Will the premiums go up based on age? Some plans increase as you age – when you really need the coverage</p>	No		
<p>Why might my premiums increase?</p>	Your premiums could increase based on factors like plan experience (use) and legislation		
<p>Do I get Best Doctors® coverage? Best Doctors is a medical diagnosis service to help you feel more certain about a medical diagnosis or treatment.</p> <p>You can call toll-free or send an email to connect with a leading specialist for a second opinion. A Registered Nurse becomes your personal health ambassador to provide support, resources and answer questions.</p>	Yes		
<p>Is there travel insurance? Why not? It comes down to value. The CAAT Plan focuses on providing comprehensive benefit coverage to protect your long-term health care needs. Only 15% of retirees travel. Why pay for a benefit you may not use, or will use less frequently later in retirement?</p>	No
