

Academic Council Update: September 2019

We have revised the Terms of Reference to provide stronger communication with faculty. We also refined how Academic Council does business in order to be more accountable for actionable items.

We have introduced internal meeting evaluations to help Council stay focused.

Program costing methods have been refined and a new template has been instituted.

Several policies were reviewed, including:

- Program Overload Fees
- Use of Electronic Devices in the Classroom
- Program Re-admission

Subcommittees:

- The Faculty Evaluation Subcommittee has been working on a streamlined evaluation and implemented changes.
- The Access and Success Subcommittee surveyed 259 College members to help direct processes and procedures with regard to student access. Currently working on mapping services for students to allow easy access to programming.
- The Program Review Subcommittee will be welcoming presentations in the Fall from programs in review.
