

## Academic Support Program:

If your WHMIS-controlled products have not been reported on a *Wellnet Inventory Spreadsheet*, then you may be able to find an MSDS for your WHMIS-controlled product through the Canadian Centre for Occupational Health and Safety's "*Academic Support Program*" (ASP), to which the College subscribes.

ASP can be accessed at the following link, from any College computer: <http://ccinfoweb.ccohs.ca/asp/>

To access ASP off campus login using your 14 digit staff card number and your personal identification number (PIN number) available from the Library.

Select the "MSDS" web collection:

The screenshot shows the CCOHS Academic Support Program (ASP) website. At the top, there is a navigation bar with links for Français, Contact Us, Help, and a search box. Below this is a menu with categories: Web Info Service, Products & Services, OSH Answers, and Education. The main content area is titled "Academic Support Program" and includes a search box with a "SEARCH" button and a "HELP ?" button. Below the search box, there are examples of search terms: "cancer benzene", "indoor air quality", and "1,1,1-trichloroethane". The "Web Collections" section lists several databases: MSDS (Material Safety Data Sheets from manufacturers and suppliers), RTECS® (Registry of Toxic Effects of Chemical Substances), CHEMINFO (Comprehensive health and safety information on pure chemicals), OSH References (OSHLINE, NIOSHTIC, NIOSHTIC-2, HSELINE, CISILO, Canadiana), and FTSS (Fiche techniques sur la sécurité des substances). A sidebar on the left contains "Web Info Service" and "Collection Information" sections with various links.

Enter the search term (e.g. any part of a product, supplier and/or manufacturer name, etc.) into the search field, or use the expanded search features of the “Advanced Search”.
