

Laptop Wireless Networking

There are two networks available: **Confed-Guest** and **Confed-Secure**. See the MacOS and Windows instructions below for connecting to either network.

Connecting to Confed-Secure

1. Click the network icon on your device and select **Confed-Secure**.

2. Enter your Confederation College username and password when prompted. Then click **OK/Join**.

The image shows two Windows dialog boxes. The top one is a login prompt with fields for 'User name' and 'Password', and 'OK' and 'Cancel' buttons. The bottom one is a security warning: 'The Wi-Fi network "Confed-Secure" requires WPA2 enterprise credentials.' It includes a 'Mode' dropdown set to 'Automatic', and fields for 'Username' and 'Password'. There are also checkboxes for 'Show password' and 'Remember this network'.

3. You may need to accept a security certificate to complete the connection.

Connecting to Confed-Guest

1. Click the network icon on your device and select **Confed-Guest**.

2. Accept the terms of use to connect.

The image shows the Confederation College Guest Network login page. It features the college logo and the following text: 'Login Instructions: To access the Guest Wireless Network please accept the terms of use and Log in.' Below this is a 'Need Technical Help?' section with contact information. At the bottom, there is a checkbox labeled 'accept the terms of use' with a yellow arrow pointing to it, and a 'Log In' button with a yellow arrow pointing to it.

3. The Confederation College website will open when the connection is completed.
