

# HET SHAH

ENGINEERING BUSINESS SAFETY MANAGEMENT

## ABOUT HET

I am a civil engineer by profession. I love listening to people speak about their own story, just shows the passion in them. I always take time to reply and solve problems and I live my life with a responsible attitude. Would love to make new friends across all departments.

## WHAT SHOULD SUCCI DO FOR STUDENTS:

- I think there is a need for enhancement of communication between the students and the student union. I would encourage the student association to post the information posters for any new event on some more applications popular among students today.
- I want to help the association listen to student demands and address it as fairly as possible and to educate students on all kinds of services provided on campus.

## WHAT MAKES YOU THE BEST CANDIDATE?

- I have a good understanding of Student Body and Management Committee and would make sure the students from all the courses are able to connect with the association as and when needed. I love finding answers and solving problems.
- I believe I am best fit for the role as I have been the manager of Architectural Domain of a National level Techno-Management fest during my bachelor's and have good experience dealing with uncertainties
