

# President's Town Hall

January 12, 2022

# Agenda

- Covid Update
- SAO Announcement
- Enrolment Update
- Student Survey Results
- Negahneewin Research Centre Updates

# Happy New Year

- Welcome back
- I hope everyone was able to enjoy some rest over the holidays
- We have returned to a different state of affairs since we left before Christmas

# COVID Update

## COVID – Step 2

- ?s regarding Step 2 –Impact - Post-Secondary – change to maximum number in classrooms of 50
- Please read your staff news and links to COVID-19 updates
- Fluid situation; updating as we get more information
- When in doubt, ask your manager

# COVID Protocols

- We have changed our protocols based on provincial changes to the testing requirements
- Employees and students who are **symptomatic** are required to stay home/work from home for at least 5 days and be free from symptoms for a minimum of 24 hours prior to returning to campus; do not seek testing
- Employees and students who have completed a rapid test and get positive test result must isolate for at least 5 days and be free from symptoms for a minimum of 24 hours prior to returning to campus – these same restrictions apply if a member of the household tests positive
- We have expanded seating in the cafeteria in the Shuniah Building; only one person can sit at a table at a time; same rules in other eating areas across campus
- No eating is allowed outside of the cafeteria/designated eating areas in building

# Masks

- We are distributing 3-layer masks; cloth masks are no longer permitted
- The province is making N95 masks available for free to colleges as of late last week but the supply will be dependent on availability. An order has been placed for 2,200 masks to add to our existing stock
- We will distribute N95s to staff on campus and are confirming we have enough supply to meet our programming needs where higher level mask specifications are mandatory (health and dental programs)
- Face shields are also recommended for those who cannot physically distance and these will be available to staff as well

# Mask Management

- <https://www.webmd.com/lung/news/20211229/cloth-masks-vs-surgical-n95-what-to-know>

# HEPA Filters

- The province has indicated they may have portable HEPA air filter units and filters will be made available as of late last week
- Much discussion in the media regarding HEPA filters; application into existing building systems require modifications
- We have requested portable filtration units from the province. Portable filtration can be used in classrooms and laboratories; facilities will work on proper installation
- Our current air exchange and filtration system is very good
  - Filters are changed out / 6-month cycle
  - Extended our air systems run time before and after buildings close
  - Increased the fresh air intakes
- Stay tuned

# Skills Advance Ontario (SAO)

# SAO Announcement

- 10.6 million to help the under and unemployed become PSWs, Home and Community Care Workers and Medical Lab Assistants
- We have secured 16 partnership agreements with both Indigenous and Non-Indigenous health care providers
- There are almost 300 employment opportunities for these trained workers
- Project runs from 2021 to 2023
- Thank you to Alison Warwick and her team for the great work under Carol Cline's leadership in Workforce Development
- And to Anne Renaud for her original efforts in securing this contract through the Ministry of Labour Training and Skills Development

# Winter Enrolment Update
