English Proficiency:	IELTS 6.5, no band lower than 5.5
Eligible Applicants:	Graduates of a four-year degree in information technology, computer science, computer science engineering or network engineering (must be 1st or 2nd class upper)
Intake	January/winter semester

This post-graduate program is unique in Ontario, defined by its focus on meeting the ICT requirements of small business. It is framed by the skill categories noted in Canada's first digital strategy: technical skills, business skills and interpersonal skills. Upon graduation, students will use these skills in a variety of sectors of the economy, filling ICT skill gaps noted in both northern Ontario and across Canada.

The **ICT Solutions for Small Business** program enables students to become proficient in the practices and techniques used in modern ICT infrastructures. Students learn how to develop and implement practical solutions to solve the typical ICT problems and challenges faced by smaller companies & businesses. Instructional methodology integrates theory with real-life simulations and hands-on, practical applications. Students apply their acquired knowledge and skills to industry-based cases and simulations, working on both individual and several collaborative team projects.

Upon graduation, students also have the option to take the exam for the Cisco Certified Entry Networking Technician (CCENT) certification.

About Confederation College

With cutting-edge programs and equipment, in-class learning that meets or exceeds industry standards, Confederation College will help you get the knowledge, skills and practical training that employers demand.

As a public college, established in Thunder Bay in 1967, Confederation College has a proven track record of delivering exceptional education and training to an average of 7,300 full and part-time students every year. It has more than 60 programs in three academic schools:

- School of Aviation, Engineering Technology & Trades
- School of Business, Hospitality & Media Arts
- School of Health, Negahneewin & Community Services

About Thunder Bay

Thunder Bay is ideal for academic studies, recreation and cultural activities. It is a clean, safe and friendly city of 108,000 people that includes a number of different multi-cultural groups. It boasts some of the most spectacular scenery in North America. Easy access to stunning natural beauty, open spaces and freshwater lakes allows students to experience a wide range of exciting summer and winter activities and to have a "truly Canadian" experience. Students' global mindset will expand and their English will improve while studying at Confederation College.
