

## Two-Year Ontario College Graduate Certificate Program

Credential upon Graduation:	Graduate Certificate
Annual Fees (CAD):	\$16,857 + \$1,555 program costs ('19/'20)
English Proficiency:	IELTS 6.5, no band lower than 6.0
Eligible Applicants:	Graduates of a four-year degree in information technology, computer science, computer science engineering or network engineering (must be 1st or 2nd class upper)
Intake	September & January

**This post-graduate program is unique in Ontario, defined by its focus on meeting the ICT requirements of small business. It is framed by the skill categories noted in Canada's first digital strategy: technical skills, business skills and interpersonal skills. Upon graduation, students will use these skills in a variety of sectors of the economy, filling ICT skill gaps noted in both northern Ontario and across Canada.**

The **ICT Solutions for Small Business** program enables students to become proficient in the practices and techniques used in modern ICT infrastructures. Students learn how to develop and implement practical solutions to solve the typical ICT problems and challenges faced by smaller companies & businesses. Instructional methodology integrates theory with real-life simulations and hands-on, practical applications. Students apply their acquired knowledge and skills to industry-based cases and simulations, working on both individual and several collaborative team projects.

**Upon graduation, students also have the option to take the exam for the Cisco Certified Entry Networking Technician (CCENT) certification.**
